---

## Career Objective

Motivated and detail-oriented Web Developer with experience in creating responsive, user-friendly, and efficient web applications. Seeking to leverage skills in [front-end/back-end/full-stack] development to contribute to a dynamic team and deliver impactful digital solutions.

---

## Technical Skills

- ✓ **Programming Languages:** HTML, CSS, JavaScript, Python
- ✓ **Frameworks/Libraries:** React, Django, Bootstrap, TailwindCSS
- ✓ **Databases:** MySQL, PostgreSQL
- ✓ **Tools & Platforms:** Git/GitHub, VS Code, Figma, Qoader

---

## Education

### BS in Information Technology

Pamantasan ng Lungsod ng San Pablo, PH | 2025-2026 (Graduating)

## Projects

### Portfolio Website

Built a personal portfolio using Django and Tailwind CSS.

### Multi-Branch Inventory Management System

**Role: Full Stack (Django) | 2025**

A full-featured Multi-Branch Inventory Management System built for scale. Includes comprehensive audit logging, product CRUD operations, branch-to-branch request management, and professional reporting with PDF data export and order invoice PDF generation.

**Izaj Lighting Inventory System (Capstone Project with Team)**

**Role: Front-End Dev (React TS) | 2025**

A centralized inventory and request management system designed for a lighting business with multiple branches. The system streamlines inter-branch product requests, tracks inventory levels, and provides real-time updates to prevent stockouts or overordering.
